Education

Parvatibai Genba Moze College of Engineering

Bachelor of Engineering in Artificial Intelligence and Data Science

Nov. 2022 – 2026

Pune, Maharashtra

Kisan Veer Mahavidyalaya, Wai

Higher Secondary Certificate (12th) – 63%

2022

Wai, Maharashtra

Ramesh Garware School, Wai

Secondary School Certificate (10th) – 86.60%

2020

Wai, Maharashtra

Skills

Languages: Python, C, C++, JavaScript, SQL, HTML, CSS

Frontend: React.js, React Native, Expo, Next.js, Tailwind CSS, Bootstrap, Figma

Backend & Database: Node.js, Express.js, MongoDB, Firebase, MySQL Workbench, REST APIs

Cloud & Tools: AWS IAM, EC2, S3, SNS, EFS, Git, GitHub, Vercel, GitHub Pages

Core Competencies

- Team Collaboration & Cross-functional Communication
- Member Competency Development & Knowledge Sharing
- Agile Development & Sprint Collaboration
- Problem Solving & Analytical Thinking
- Requirement Gathering & Client Communication
- Code Reviews & Peer Learning
- Time Management & Task Prioritization
- Adaptability & Continuous Learning

Experience

Freelance Web & App Developer

2025 – Present

React.js, React Native, Next.js, Firebase, APIs

Remote

- Delivered 12+ freelance and personal projects, including websites, mobile apps, dashboards, AI-based tools, and client-focused digital solutions.
- Worked on projects for startup-based brands such as Scale100Million, Squirex, and other freelance clients with focus on clean UI and responsive design.
- Built full project flows from requirement understanding, UI development, API integration, database setup, testing, deployment, and client updates.
- Used modern technologies like React.js, React Native, Expo, Next.js, Firebase, Tailwind CSS, APIs, GitHub, and Vercel for project delivery.

BrainlyHood Technologies Pvt. Ltd

Dec 2024 – Feb 2025

Web Developer Intern

Wagholi, Pune

- Developed a web-based dashboard using React.js to automate and display daily unit test results for an in-development product.
- Designed an interactive and structured dashboard using React.js, HTML, CSS, and JavaScript to improve test result visibility.
- Integrated API calls to fetch and update test data dynamically, providing real-time access to the latest reports.
- Improved team collaboration by building a system to share daily test reports in a clear and organized format.

TechnoGrowth Software Solutions Pvt. Ltd.

Jan 2025 – Mar 2025

AWS Intern

Warje, Pune

- Gained hands-on experience with AWS services including IAM, EC2, S3, EFS, and SNS through practical cloud tasks.
- Deployed a WordPress-based website on AWS and worked with server access tools like MobaXterm and PuTTY.
- Implemented IAM basics including users, roles, permissions, and security policies for controlled cloud access.
- Configured S3 for storage, EFS for shared file systems, EC2 for hosting, and SNS for notifications and alerts.

Projects

Repwise (Fitness Tracking Mobile App) | *React Native, Expo, TypeScript, AsyncStorage*

November 2025

- Developed Repwise, a mobile fitness tracking app for logging workouts, exercises, sets, reps, weights, and sessions.
- Built workout history and rest timer features to help users track performance and maintain workout consistency.
- Added body metrics and progress photo tracking to help users monitor fitness transformation over time.
- Implemented offline local storage using AsyncStorage to keep workout data and progress photos private on the device.

Clothifyy (AI Virtual Wardrobe App) | *React Native, Expo, Firebase, OpenAI API*

January 2026

- Developed Clothifyy, an AI-powered virtual wardrobe app that helps users manage clothes and get outfit suggestions.
- Built wardrobe management features to digitize, categorize, and organize clothing items in a simple mobile interface.
- Integrated AI styling and weather-based recommendations to suggest suitable outfits for different occasions.
- Used Firebase for authentication, cloud storage, and syncing wardrobe data across devices.

S2C / Sketch to Code (AI Code Generation Website) | *Next.js, React, Convex, AI SDK*

March 2026

- Developed S2C, an AI-powered tool that converts sketches, wireframes, and visual ideas into responsive HTML/CSS code.
- Built an infinite canvas with drawing tools, shapes, frames, arrows, and text support for creating UI wireframes.
- Integrated multiple AI models like OpenAI, Claude, Gemini, and Groq to generate and improve production-ready code.
- Added chat-based editing, styling controls, and export options to help users refine designs and download code or images.

SPPU Notes App (Educational Mobile Platform) | *React Native, Expo, Firebase, Moti*

May 2026

- Developed a cross-platform mobile app for engineering students to easily access structured academic notes and study materials.
- Built a 5-step guided browsing flow with fluid animations to help students quickly find notes by year, branch, and subject.
- Integrated Firebase to securely handle user authentication, database management, and cloud storage for PDF/Word files.
- Added an admin dashboard with file upload, tagging, and organization tools to easily manage and feature content.

Certifications & Technical Practice

- Completed a Machine Learning course from GeeksforGeeks and practiced ML concepts through hands-on notebooks and mini projects.
- Built and uploaded SQL practice work, Machine Learning notebooks, and project source code on GitHub for portfolio building.
- Practiced data preprocessing, model training, prediction tasks, database queries, API usage, and frontend deployment workflows.
